

Erratum

# Erratum to “Lacunary statistical convergence of multiple sequences” [Appl. Math. Lett. 19 (2006) 527–534]

Ekrem Savaş<sup>a</sup>, Richard F. Patterson<sup>b,\*</sup>

<sup>a</sup> *Istanbul Ticaret University, Department of Mathematics, Uskudar, Istanbul, Turkey*

<sup>b</sup> *Department of Mathematics and Statistics, University of North Florida, Jacksonville, FL 32224, USA*

Received 20 September 2006; accepted 20 September 2006

- 
- (1) On page 529: The statement “we will denote the set of all double lacunary sequences by  $N_{\theta_{r,s}}$ ” should be removed.
  - (2) On page 529: In Definition 2.4, the statement “for every  $\varepsilon > 0$ ” should be removed.
  - (3) On page 530: In the proof of (C), for all  $K$  should be replaced with for all  $k$  and  $l$ .
  - (4) The references “Li, J. *Lacunary statistical convergence and inclusion properties between lacunary methods*, *Internat. Math. and Math. Sci.* 23 (2000) 175–180” and “Pringsheim, A. *Zur theorie der zweifach unendlichen Zahlenfolgen*, *Mathematische Annalen*, 53 (1900) 289–321” should be added.

These corrections do not affect any proofs in our paper.
